

1.0 POLICY

- 1.1 The Board believes that ongoing monitoring of programs at school and system levels will assist in the efficient and effective management and operation of physical, human, and economic resources for the optimum benefit of students and contribute to continuous improvement in results.
- 1.2 The Board believes that the need for any program, school or system evaluation should be identified as part of the annual setting of the Division's priorities for the school year.

2.0 GUIDELINES

The Superintendent or designate shall be responsible for the arrangement of any program, school or system evaluation identified as required.
