

1.0 POLICY

- 1.1 The Board recognizes that situations may arise where a student is injured or becomes ill. In some situations, where students remain at school, the school shall make a reasonable effort to contact the parent/guardian and to make the student comfortable.
- 1.2 The Board also recognizes that, in some instances, the health needs of the ill or injured student are best served by the transportation of such students to an appropriate medical facility.
- 1.3 The Board also recognizes that its employees will be called upon to determine the most appropriate mode of transporting ill or injured students.
- 1.4 The Superintendent or designate shall maintain the administrative practice associated with this policy.
