Namao School

"Taking Pride in Learning!"

One of the division's longest established schools, Namao School takes pride in its heritage in the community. The school has been on the same site since 1885 and provides a Headstart to Grade 9 education for 485 students. Namao School's main focus is on student learning, and its motto "Taking Pride in Learning" is reflected not only in academic success but also in performing arts, athletic programs, character development and community service. Namao has an excellent music program – the four school bands that entered the 2014 St. Albert Rotary Music Festival all received a gold rating. In addition, the Junior High Beginner Band received Gold with Distinction and the Junior High Jazz Band was awarded the Chairpersons Award presented at the Gala Award Ceremony. The school maintains its tradition of excellence with a strong school council and community support.

Together, the Namao school community has built three new playgrounds. Namao also serves students with specific needs, housing the Preschool Enrichment, Life Skills and Knowledge and Employability programs. Namao School is committed to fostering outstanding student learning within a safe and caring learning environment.
