Sturgeon Heights School

"Dare to Soar"

Located within the City of St. Albert boundary, Sturgeon Heights School serves students in Preschool through Grade 9 from acreage developments and surrounding St. Albert families. Sturgeon Heights has a history of building students of character with a foundation for success. The school has a reputation of strong academic programs and excellent results.

As well as putting an emphasis on academic achievement, the school provides a strong complementary program in fine arts and career and technology studies (CTS) and an active extracurricular program. The school has a CTS foods facility, an open library and learning commons, a dedicated music room and all classrooms have excellent access to a variety of technologies to enhance and expand learning.

Sturgeon Heights School offers a safe, caring environment reinforcing the expectations of the community. The school recognizes that education is a partnership involving community, parents, students and staff. This deep connection with family is evident in all we do and gives rise to many celebrations and school gatherings.

Our school runs a Gifted and Talented program for children of Preschool and Kindergarten age. This program is strongly influenced by the Reggio Emilia learning philosophy and helps young minds become engaged in their school and learning. We are fortunate to have the SIGIS childcare group as part of our building, and they host a wonderful before and after school childcare program as well as a daycare program to complement our early childhood programming.

Highlights

Strong Academic Program,
Kindergarten to Grade 9
