New High School Program offerings from Sturgeon Public Schools Growing a Strong Future

Sturgeon Public Schools is offering two new High School programs for the 2021-2022 school year. A Cisco Networking Academy and a Childcare CTS Course. “Our staff are committed to ensuring that our students can be leaders and ready to succeed in their future endeavours when they graduate,” explains Mary Lynne R. Campbell, Superintendent of Sturgeon Public Schools.

Cisco Networking Academy High School students in Sturgeon Public Schools will have access to innovative STEM (Science, Technology, Engineering & Mathematics) courses. Sturgeon Composite High School is now a Cisco Networking Academy. Students will be able to complete their CompTIA A+ Certification and begin or complete their CCNA Certification. “As principal of Sturgeon Composite High School, I am proud that our school is leading the way in 21st century learning,” stated Sherri Devolder, Principal of Sturgeon Composite High School, who went on to further share, “These certifications and the hands-on experience gained during Academy instruction will give students the competitive edge when entering the workforce or furthering their education with polytechnic schools such as NAIT or SAIT.”

Childcare CTS Course A Childcare CTS program will provide the opportunity for Sturgeon Public High School students to acquire First Aid Certification in Childcare and the Child Development Assistant Certification (Formerly level 1 Childcare). “I’m very pleased that we are able to offer this exciting program for High School students,” said Sherri Devolder, Principal of Sturgeon Composite High School. “The program is one of many new innovative programs that Sturgeon Public Schools is offering our students.”
