HIGHLIGHTS, PLANS, ASSUMPTIONS AND RISKS SUMMARY- 2025/2026 BUDGET REPORT

The following were presented to the Board and approved as underlying the budget. These key points and assumptions used in development of the budget take into

consideration the economic environment of the jurisdiction, focus on anticipated changes from current year, and are realistic and consistent with the three year

Education Plan. At a minimum, they disclose key budget assumptions, financial & business risks, and specific strategies explaining how this budget will support the jurisdiction's plans.

Budget Highlights, Plans & Assumptions:

•The 2025/26 school year budget reflects the mission, vision, values, and goals as set forth by the Board of Trustees in its foundational statements and reflects the priorities in the Division's Three-year Education Plan.

•Sturgeon Public School Division has an approximate budget of \$79 million, which is utilized to provide public education services to the students in its jurisdiction. •The Division serves approximately 5,200 funded students from Early Childhood (ECS) to Grade 12 within 17 schools.

- •Overall, the Division is expecting a deficit of \$0.9 million in the 2025/26 school year. The deficit is mainly attributed to a loss in resources and an increase in costs.
 - Revenues have declined from the loss of operational funding from the Government of Alberta and support from the Federal Government.
 - Reserves usage is also declining as reserves have been depleted as they were used to support needs in the classroom.
 - Concern continues to grow as the Division is faced with many cost pressures that substantially exceed funding increases. Cost pressure include: Inflation, Tariffs, Benefits, Insurance, Utilities, Construction Costs, Grid Creep, and Unfunded Negotiation Settlement.

•Stabilization funding (\$2.9M) is expected to decrease over the next three years.

Assumptions:

•Revenue Assumptions

- Enrolment is projected to be stable for the 2025/2026 school year with a less than One Per Cent (1%) increase (based on projected student headcount).
- Operational funding has increased by \$0.15M. This will help offset an already underfunded program. However costs are continuing to increase significantly.
- The Division has seen a substantial loss in Federal support for Jordan's Principle funding of \$1.7M, which was estimated at \$2.2M for the 2025/2026 year.
- It is assumed that the division will see a decrease in the prime rate.

Expense Assumptions

As a result of economic conditions, political pressures and inflation, the division is seeing increased costs. Tariffs and general cost increases are being expected
across all areas in the division.

- · Benefits costs have continued to increase.
- Utility costs can fluctuate drastically, and estimates have been based on historical usage and estimated rates. Carbon tax has been removed but if this returns the division will see at least a \$0.25 million increase in utility costs.
- Constructions, insurance, technology, vehicles, fuel and other supplies costs have also gone up as a result of inflation.
- Unfunded settlement increase with no offsetting revenue increase has caused a loss of supports in the classroom and will prove to be challenging in future vears.
- Standard cost of certificated teachers has increased due to change in staff composition and benefits increases. This has not been supported by an increase in
- funding. The standard cost of a teacher went up from \$111,067 to \$112,800, a 1.6% increase from the 2024/2025 school year.
- Technology Services, Transportation Services, Learning Services, and Facility Management, are budgeted centrally.

•Staffing

- Staff levels have been reduced to align with the reduction in resources available and cost increases. Further reduction may be required, if funding is not increased to offset cost increases. This will be done to ensure a balanced budget.
- The division is seeing an increase in support required by students and is concerned about the level of funding provided to support these needs through staffing in the
 future.

Significant Business and Financial Risks:

Government Funding

- Stabilization funding (\$2.9M) is expected to be removed over the next three years, which will impact services provided to students.
- The Division has yet to hear about some funding announcements and how certificated staff settlements will be funded. If funding is not provided to adequately
- support these settlements, there will be further reductions in educational services.

Enrolment

- If enrollment increases in September 2025 the division will be expected to support students with the same funding, as the division won't see an adjustment until the following school year. In addition, because of the Adjusted Enrolment Method (AEM), the division also only sees 70% of the funding for any new students.
- There is always a level of uncertainty around enrollment projections, especially for ECS.

Inflation and Cost Escalations

- Inflation and cost escalations are still very uncertain. The division could continue to see increased costs for many key items it needs to support student learning and school buildings. If costs continue to escalate this could be a risk to the division and budget adjustments may have to be made.
 - There is a large uncertainty in tariffs.

•The classroom complexity and rising mental health and wellness challenges will continue to escalate. These growing pressures have depleted the division's reserves, and going forward the services may need to be realigned to meet the essential requirements for Education.

DETAILS OF RESERVES AND MAXIMUM OPERATING RESERVE LIMIT EXEMPTION CRITERIA

for the Year Ending August 31, 2025

This template is designed to provide information about your school jurisdiction's reserves and to assist you in determining if you need to submit a letter requesting an exemption to exceed the maximum limit of Operating Reserves to the Minister. It has been split in to two parts, Part 1: exemptions (Row 21 - 51) and Part 2: transfers between operating and capital reserves (Row 52 - 67).

Complete Part 1 if over 6% in cell B24. Check for flag in cell E27.

Part 1: As per the 2024/25 Funding Manual, a formal request for an exemption to exceed the 2024/25 maximum operating reserve must be approved by the board and submitted to the Minister. If a reserve request to exceed the limit is required, please submit your formal letter by November 30, 2025. This tab should be attached as a supplement to your formal request. School jurisdictions who are projecting their 2024/25 operating reserves to be over their 2024/25 maximum limit, which is based on 6% of school jurisdiction's 2023/34 total expenses, and intend to submit a formal 2024/25 exemption request must complete Section A (if a 2023/24 exemption request was made and Ministerial approved) and Section B, explaining the rationale for an exemption and demonstrating when operating reserves will be drawn down below 6% over the subsequent school years.

Complete Part 2 if projecting transfers between operating and capital reserves.

Part 2: If your school jurisdiction is projecting to transfer between operating and capital reserves for the 2024/25 and/or 2025/26 school year, please complete the section under Row 52. The transfer amounts reported should agree with the 'AOS' tab. Please note that a letter requesting Ministerial approval is required to transfer from Capital to Operating Reserves.

SECTION A: 2023/24 EXEMPTION REQUEST

Cell E29 reports your school jurisdiction's 2023/24 Ministerial approval exemption amount over your 2023/24 maximum limit. Cell E30 shows the school year you planned to return below the limit, as per your 2023/24 exemption approval.

|---------|--------|
| 2024-25 | |

If you've been approved for a 2023/24 exemption and will be requesting an exemption for 2024/25, please provide the following details below: Have you followed the drawdown plan from your 2023/24 exemption request? If yes, please outline what has been achieved. Please indicate the \$ figure amounts and initiatives.

If not, please explain any deviations from the original plan and the reasons for the changes.

SECTION B: (MAX LIMIT EXEMPTION CRITERIA)

Please provide detailed rationale and planned usage for operating reserves in excess of the 2024/25 maximum: Please note that this does not constitute as a Ministerial request for approval. An exemption request letter submitted to the Minister is still required for an exemption for the 2024/25 school year.

Provide a detailed drawdown plan to illustrate how and when the reserve balance will be below 6.0%.
